

Candidate Statement for Steven Dunbar

I am an Engineering Supervisor at a Livermore-based bus manufacturer, and have been serving our community as a current Planning Commissioner and prior Asset Management Outreach Committee Member. I grew up helping my mother with M.S., which drives my commitment to deliver thoughtful improvements that provide opportunities for all. I am ready on day one to move the city forward with energy, attention to detail, and compassion. Key elements of my approach include: providing accessible, approachable, and pragmatic governance; enabling every resident to participate in Livermore's civic life; creating vibrant communities that nurture thriving families; building safe, environmentally friendly neighborhoods; and maintaining responsible financial stewardship. I am proud to call Livermore home because of its strong sense of community and small-town feel. This didn't happen by chance — it's the result of thoughtful planning and collaboration between residents, city council, and staff. Let's keep Livermore a place where everyone feels at home and can thrive. To learn more about my detailed policy positions or to connect, visit DunbarForLivermore.com. It would be an honor to have your vote.
