Hello Mr. Vinn,

I received the July 22, 2021 letter you sent regarding oversight for the Old Train Depot Site. As stated in the letter, Water Board staff met with representatives of the City of Livermore and its consultant, Pangea, on July 12, 2021, to discuss preliminary comments on the Interim Remedial Action Plan (IRAP). We are satisfied with the level of response the City and Pangea are providing and thank you for your cooperation. Please let us know when to expect the responses to the preliminary comments.

This letter and this email will be uploaded to GeoTracker for the public record.

Thank you,

Sherry Gamboa
Water Resource Control Engineer
SF Bay Regional Water Quality Control Board
